“ I can not say enough wonderful things about Dr. Nyron. He was a true class act. A kind and compassionate person. He was a wonderful Dr and a gentle soul. The love he showed to my beloved dog Libby Marie and to my mom's dog Tana was something i will never forget. He hugged me and dried my tears at one of the worst moments in my life. Our family will forever be grateful for him. RIP. Our deepest condolences, Gina Giese & Andrea Dittman.

LS

“ Dennis was a dear friend. My family started with Ronnigen-Nyren back in the 70's for our family dog. When I got my own dog in 1987, Dennis was my veterinarian. We had a very special friendship and he took such great care of my Sadie Puff until she died before her 17th birthday. We always laughed at my first visit when i brought 2 full pages of questions! All these years we have shared Christmas cards to stay in touch. He was deeply passionate about his work and was a genuinely kind and caring person. He will be missed so much! Love and Prayers to All, Lynn Strombach

Dr. Nyren was my vet in the 80's for my bunny and my dogs. The most caring and gentle vet ever. I haven't had a vet since that I trusted as much as him. I was sad to see him leave in Ashwaubenon and I found a different vet then too. I like to think that he will be helping in heaven with all my animals that have passed. God Bless Dr. Nyren 🙏

“ *Dr Nyren was our vet for so many years and he was very special. He truly cared about our dogs and each time we lost one he was as sad as we were. There was one dog we had that he was so sick he would only charge us for the meds when we brought him in. He was such a special person and our condolences go out to Matt and his sister and Mom.*

Sincerely,

Bruce and Mary Besaw
