“ Margaret was a kind, caring and considerate person especially of other people's feelings. I feel so much for the loss the family and Harley are experiencing. I want them to know how much I am thinking of them. She looked after me from being aged three and was always very much part of my young life as was all the Whilde family Then in time I looked after Christine and Angela and I have lovely memories of them when they were kids. She was there in my time of need. She will always stay in my memories.

I was proud to call her auntie and then as I grew she became friend, a life long friend and we always kept in touch by letter despite the distance we both lived When she visited Yorkshire she always came to visit us and we reminsced about days gone by and her family and listened to her stories of the travelling she did in America and.....here I smile because she could talk. I loved her very much and she loved the Laird family. She was there for us in our time of need especially for my mum. My two brothers and sister pass on their condolences to you all. We will never forget Margaret. I will miss writing to her and her letters to me.
