

Natalia Grace Gauthier

November 15, 2019 - November 15, 2019

Natalia Grace Gauthier was born on Friday, November 15th, 2019 at 12:08 AM to parents Joel and Kalyn Gauthier. She weighed 15 ounces and was 10 inches long. Natalia blessed us with her presence for almost an hour; passing away at 12:53 AM. During Natalia's time on earth, she was surrounded with love, hugs and kisses, holding hands, and I love you's. Although Natalia's time here was short, we are blessed to have memories of our time here together and memories throughout the pregnancy. From the very instant we found out Natalia was going to be a part of our family we were beyond excited. During the pregnancy, we all spent countless hours talking to and singing to Natalia. It was clear almost from the very beginning that Natalia loved music and dancing. During an ultrasound early on, the technician made a joke that she was dancing to the beat of the music-she was fist bumping to the beat in fact. Without fail, every ultrasound that followed Natalia Grace was dancing. We spent countless hours playing music to her throughout the pregnancy and feeling her dance. Macey spent countless hours singing at the top of her lungs songs she made up for her little sister. We have no doubts that Natalia Grace is now dancing in heaven.

Natalia leaves behind Her parents Joel and Kalyn Gauthier, her sister Macey Gauthier, her Grandparents: David and Laurie Gauthier, Scott and Lisa Petty, her aunts and uncles: Kurt Petty, Elmer and Carrie Guevara, David and Niki Koltz, Jillian Gauthier, and Sam Gauthier, her great-grandparent Yvonne Zuelke. Natalia Grace is further survived by other relatives and friends.

She was preceded in death by her great grandparents: Allan & Carol Gauthier, Harold & Cassandra Babcock, Charles Petty, Carolee Petty, and Elmer Zuelke.

Natalia Grace will be loved forever and we are grateful for the time we got with our beautiful baby girl. "A butterfly lights beside us like a sunbeam and for a brief moment its glory and beauty belong to the World but then it flies again and though we wish it could have stayed, we feel lucky to have seen it."
